

THE ANXIETY & RESILIENCE SYSTEM™

Junior Agent Edition

(Ages 6-9)

Transforming Panic into Power!

Agent Name: _____

CONFIDENTIAL: PARENTS ONLY

The 'Junior Agent' Launch Protocol

Step 1: The Setup (Create Mystery)

Don't just hand them this book. Put it in an envelope. Make it special.

Step 2: The Script

"Hey, I found this Training Manual for a Junior Agent. It teaches you how to hack your brain when it feels like a storm."

"It has Cheat Codes. Do you think you are old enough to try Mission 1?"

Step 3: Troubleshooting

If they say 'I don't want to do school work':

"This isn't school. It's a Level Map. We earn XP to beat the Boss Level and get rewards."

Launch Protocol (Continued)

Step 4: The First Win

Do not do the whole packet at once.

Do one tangible thing immediately (like the Brave Button on Page 14) to lock in engagement.

Goal: Frame this as an exclusive upgrade, not a medical intervention.

Welcome, Agent!

This is your Top Secret Training Manual.

Some brains are like messy rooms. That is okay!

Mission: Build your Brain Muscle so you can handle ANYTHING.

Your 5 Missions

Mission 1: The I.C.E. Code

(Stopping Panic)

Mission 2: The Scribble Box

(Stopping Worry)

Mission 3: Stealth Mode

(School Drop-offs)

Mission 4: Perimeter Check

(Nighttime Safety)

Mission 5: Level Up!

(Being Brave)

MISSION 1:

The I.C.E. Code

Video games have cheat codes. Your body has one too.

I.C.E. = Instantly Calm Emotions

When your heart beats super fast, we use the I.C.E. Code to hack the system.

How to use the Code

1. Get an Ice Pack (or cold water).

2. Put it on your eyes and cheeks.

3. Hold your breath for 10 seconds.

4. Your heart will slow down AUTOMATICALLY.

Square Breathing

Trace the box. Start at the Star.

BREATHE IN (4)

HOLD (4)

HOLD (4)

START ★

BREATHE OUT (4)

MISSION 2:

The Scribble Box

The Problem: Your brain is full of 'What ifs.'

The Fix: Get them OUT of your head.

You don't have to write perfectly. You can scribble, draw, or ask your parent to write.

My Scribble Box

Park your worries here.

Spot 1 (Draw here)

Spot 2 (Scribble here)

Spot 3 (Write here)

Tool: The Truth Tester

Sometimes our brain tells us a **True Fact** (Right Now).

Sometimes it tells us a **Worry Story** (Future).

True Fact: 'I see a dog.'

Worry Story: 'The dog will bite me later.'

Is it True?

Put your thought on trial!

The Thought:	
Is it happening RIGHT NOW?	☐ YES ☐ NO
Do I have proof?	☐ YES ☐ NO
Is it just a Story?	☐ YES ☐ NO

MISSION 3:

Stealth Mode

Going to school can be hard.

We don't need to cry. We need a **Secret Mission**.

Choose Your Signal

The Hand Squeeze

Squeeze 3 times for 'I Love You'.

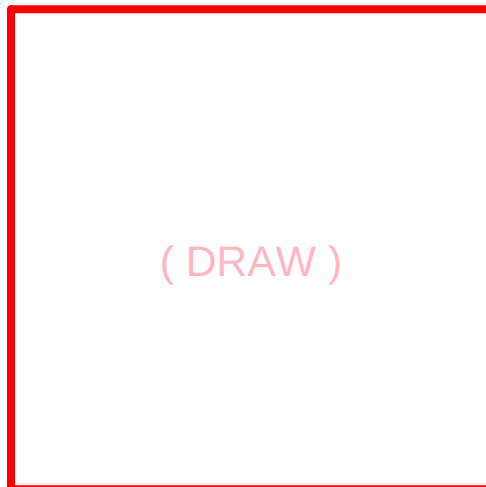

The Ear Tug

Tug ear means 'I'm brave'.

The Brave Button

Hidden dot on wrist. Press for power.

Draw your button design here:

Car Drop-Off Checklist

☐ Pump Up Music Played

☐ Brave Button Charged

☐ Secret Signal Sent

☐ Handover to Teacher

MISSION 4:

Perimeter Check

Nighttime is when shadows look weird.

We need to secure the perimeter.

Use your 'Anti-Fear Mist' to spray the room safe.

Bottle Label

Cut this out and tape it to a spray bottle!

PERIMETER SPRAY

Contains: Anti-Fear
Serum

Potency: 100%

**SPRAY TO SECURE
ROOM**

MISSION 5:

Level Up!

Being brave is like a video game.

You don't fight the Boss at Level 1.

You have to earn XP (Experience Points).

My Level Map

COACH NOTE: 100 XP = 30 Mins iPad / Pizza Night / Stay Up Late.

BOSS LEVEL (Goal):	WIN!
Level 4:	___ XP
Level 3:	___ XP
Level 2:	___ XP
Level 1 (Start Here):	___ XP

The Power of YET

If you can't do a level...

Do NOT say: 'I can't do it.'

SAY: 'I can't do it... YET.'

You are just gathering XP.

CERTIFICATE OF BRAVERY

This certifies that Agent

Has completed their training.
They are ready to handle
anything!
