BRAVELY'S JUNGLE FIELD GUIDE

The Official Companion to the Video Game

EXPLORER NAME: _____

DATE STARTED: _____

WARNING: This book belongs to a Super-Sensor!

The Story of Bravely

Meet Bravely.

*Bravely is a Lion Cub with a secret. He isn't just a regular lion; he is a **Super-Sensing Lion**.*

His ears can hear a twig snap from a mile away. His nose can smell rain before the clouds even arrive.

*But sometimes, his brain works **too fast**. It spots dangers that aren't even there!*

*Inside his head, he has a **Watch Lion**. When Bravely wants to try something new, the Watch Lion roars: 'STOP! What if you fall? What if they laugh?'*

So, Bravely freezes. He wants to go, but his paws feel stuck to the ground.

YOUR TURN:

Draw a picture of what your 'Watch Lion' (or Watch Dog) looks like when it is barking too loud.

Mission Briefing

You helped Bravely cross the bridge in the video game. You used the **Shrink Ray**, took **Baby Steps**, and earned your **Badge**.

But guess what? **These tools work in real life too!**

This Field Guide is for your *real* adventures. Use it when:

- You feel scared to try something new.
- Your 'Watch Lion' is roaring too loud.
- You need to shrink a worry monster.

MY SUPER POWERS (Check all that apply):

- ☐ *I notice things others miss.*
- ☐ *I have a super-fast brain.*
- ☐ *I feel feelings very deeply.*
- ☐ *I ask 'Why?' a lot.*

LEVEL 1: THE SHRINK RAY

In the game, you shrank the monster. Now let's shrink a REAL worry.

STEP 1: DRAW THE MONSTER

Draw what your worry feels like right now. Make it look huge and scary!

STEP 2: ZAP IT!

Ask: Is this a Tiger (Dangerous)? Or a Mosquito (Annoying)?

STEP 3: DRAW THE SHRUNKEN WORRY

Draw the worry again, but tiny (like an ant).

LEVEL 2: BRAVE BABY STEPS

You don't have to jump to the top. You just need to take one step.

THE GOAL (Top of Tree):	_____
Step 3 (Almost There):	_____
Step 2 (Getting Braver):	_____
Step 1 (Super Easy):	_____

Example: If you are scared of the pool, Step 1 might be 'Dip one toe in.'

LEVEL 3: THE 'WHAT IF' FLIP

Your brain loves to ask 'What if it goes wrong?' Let's flip the coin.

THE HEADS SIDE (The Worry)

My brain says: 'What if... _____'

FLIP IT! ■

THE TAILS SIDE (The Brave Thought)

I choose to ask: 'What if... it goes OKAY?'

'What if... _____'

PARENT MISSION GUIDE

The Science Behind the Jungle

1. Cognitive Defusion (The Shrink Ray)

Anxious kids believe thoughts are facts. This tool teaches them to observe the thought ('My brain is telling me this is big') rather than being the thought.

2. Graduated Exposure (Baby Steps)

Avoidance feeds anxiety. We use 'scaffolding' to break tasks down. The goal is to tolerate distress, not eliminate it immediately.

3. Cognitive Reframing (The Flip)

2e children have vivid imaginations. We validate the fear but replace 'irrational outcomes' with 'balanced possibilities.'

4. Effort-Based Worth (The Badge)

We explicitly reward TRYING. Bravery is not the absence of fear; it is acting in spite of it.

EXPLORER'S POCKET KIT

Instructions: Cut these out and keep them in your pocket for real-world adventures.

■ WORRY SHRINK RAY

1. Name the Worry.
2. Is it a Tiger (Danger) or a Mosquito (Annoying)?
3. Shrink it down!

■ THE WHAT IF FLIP

HEADS:

'What if it goes wrong?'

TAILS:

'What if it goes RIGHT?'

OFFICIAL CERTIFICATE OF COURAGE

This certifies that

**Has learned the secrets of the
Jungle
and is now a**

MASTER OF BRAVERY!

"The roar is inside you!"
